GREASIL 500

LUBRICANT GREASE WITH LITHIUM

Characteristics

Appearance: Grease (NLGI grade N2)
Basic components: Lithium soap, mineral oil, special additives for extreme pressures, anti-corrosion, anti-oxidant and anti-rust additives.

Use

Mechanical industry and Bike/MTB sector

Application

GREASIL 500 is a high quality multi-purpose grease with high resistance, characterized by anti-seize properties even in presence of extreme and intermittent pressures.

Suitable for temperature between -30 °C and 125 °C, highpoint at 140 °C.

The new manufacturing process, the special base and additives used, give to GREASIL 500 higher properties in comparison to common lithium based greases. GREASIL 500 has a strong mechanical stability. Suitable when normal greases cannot reduce the wear of work's surfaces and when EP (Extreme Pressure) characteristics are required.

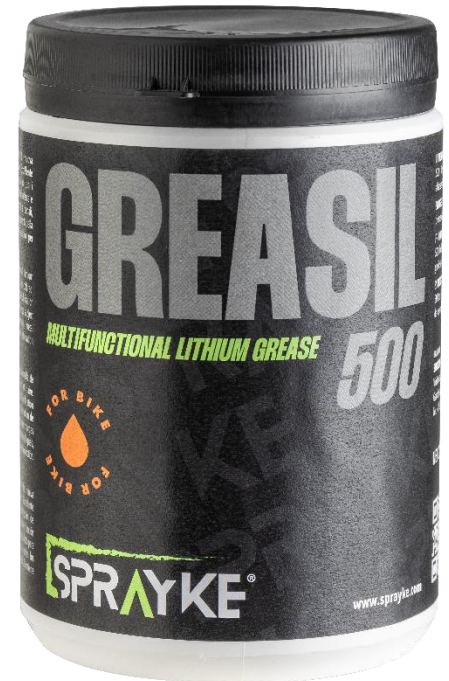

This type of grease ensure following advantages:

- Excellent properties anti-welding
- Excellent non-wear power
- Excellent anticorrosive and antirust powder
- High resistance to cutting forces
- Excellent resistances to wash away action of the water

GREASIL 500 is particularly indicated to lubricate all mechanic parts of the Bike and it is formulated for all types of Bike.

Packaging

Pots net weight 900 gr
Box 12 pots
Product Code 16070/01
